

Notice of Exhibition at 'NEPCON Japan 2026' for SIIX Corp

We pleased to announce that SIIX Corporation will participate in NEPCON Japan 2026 at Tokyo Big Sight from January 21 (Wednesday) to January 23, 2026 (Friday). During the exhibition, we will present advanced EMS (Electronics Manufacturing Services) capabilities and innovative solutions addressing some key challenges in industry.

Highlights include:

- **SIIX: latest EMS Site Capabilities and management features**
- **Electroninks: a range of advanced printable inks made from metals like silver, gold and copper that are ideal for next-generation devices**
- **Sakata Inx: a functional materials manufacturer involved in electronics with increasing demand**
- **Innominds: a full-cycle platform-led digital engineering company with deep expertise in AI, cloud, data, devices, and design**

※It is an image of the booth. The actual exhibition booth may differ.

We invite you to explore how SIIX delivers value beyond contract manufacturing and contributes to driving innovation in electronics industry.
